

**IAEG NOA Commission Call notes:
October 14, 2019 (10:15 pm Pacific Time Zone) meeting held through Skype**

Attendees

Yul Roh
Mark Bailey
Alessandro Gualtieri
Francesco Turci
Bradley Erskine
Sarah Kalika
Martin Harper

Report by Yul Roh

Discussion of presentation delivered to, and meeting with, IAEG Executive committee in Jeju, S. Korea

Discussion of Commission Responsibilities

- Annual Commission Report to IAEG
- Annual Meeting Technical Session - EGU
- Group Membership – All commission members must join IAEG
 In Italy- International IAEG? They will check on how to become members

Discussion of Commission web presence

Might be easiest to host our own website then send IAEG a link with that info- wiki format used in Italy. Designed for discussion. Everybody is editing, board approves additions.

Pause for earthquake in California 4.7 in Pleasant Hill, CA eastern SF Bay Area
Show window- then link to wiki page

IAEG Commission list- need to get added, Sarah to contact IAEG and get our group added

Membership Discussion

Accept Martin Brook into the group - New Zealand: pending receipt of his CV

Additional prospective member suggestions:

National Council of Research Geologists- Fabrizio Piana, Luca Barale, colleagues from France (Geological Survey of France), Jasmine Petriglieri / New Caledonia

- Focus on finding new members who have an applied perspective / Geologists / IHS / working in field
Marc Hendrickx, Geologist
Philip Hibbs, IH
Laura O'Heir - SFPUC
Brad Van Gosen - USGS

Julie Wroble - toxicologist EPA
Lynn Woodbury - CDM Smith / toxicologist/air work?
Analyst: in Italy: Elodie Amiguet – works for Imerys
Former Lab Analyst – Geologist - Erell Leocat
Tunneling: Francesco Cippoli

Looking for representation from countries that have NOA issue

Maybe we should form an Ad Hoc Membership Subcommittee- people who focus on vetting members of the group: Mark can assist with that

Method we're going to use to approve membership- look at CV and decide based on proposal / nomination of member

Discussion of general primary issues of focus for commission

- Field identification and assessment group
- Lab analysis group
 - Mark is working with ASTM on lab methods
- Worker / Public Protection group –
 - Bradley Erskine is working on worker protection side - Cal-OSHA petition
Moving forward on specific guidance for worker protection on NOA sites

Discussion lead to agreement to start off focusing on just one thing – Lab Analysis Tasks

- Begin to assemble library of different test methods
- Mark to invite full commission to become collaborators on the ASTM method

Outreach

Discussion of need to reach out to various organizations and let them know of our group's presence

GSA, AIHA (sampling & laboratory analysis committee; construction committee), others internationally

E&EG Journal

Current expectation - to be published in February

Mark could write something up as an introduction/foreward promoting the Commission / AEG TWG?

EGU Vienna (May 2020):

Representatives of this group have applied to host a session

Would be good to do some presentations, have a face to face meeting

Standing Next Call:

November 11 or 12 for next call- similar time, through Skype

To Do List:

Review & respond to New Zealand proposed members- CV

Australia - Philip Hibbs - CV

Julien Waeber- has certificate of IAEG Commission approval - Sarah will get from him

Get us added to IAEG Commission list on website
